

Report of Public Agency Performance on Suspension/Expulsion Rates for Students with Disabilities

Indicator 4: Suspension/Expulsion Rate

Percent of PEAs identified by the State as having a significant discrepancy in the rates of suspension and expulsion of children with disabilities for greater than 10 days in a school year.

Measurement

The data are reported to the ADE/ESS by each public education agency (PEA) in the state in an annual report. Arizona defines significant discrepancy for suspension/expulsion to be more than 2 students suspended for longer than 10 days and equal to or greater than 5% of the special education population of the PEA.

Explanation of Indicator

The data reported below indicate the PEAs that reported suspending or expelling any student with a disability for longer than 10 days in the school year 2005-2006.

Exceptions:

- PEAs that are not on the list reported they did not expel or suspend for longer than 10 days any student with a disability.
- PEAs that are listed but have no data did suspend students with disabilities but:
 - The number of students with disabilities enrolled in the school was less than 10, or
 - The number of students with disabilities who were suspended was less than 3.
 In these instances, the data are not reported to ensure confidentiality.

State Target for SY 2005-2006: 1.60% of the PEAs in Arizona have suspension rates \geq 5% of their population of special education students. The target for each PEA is <5%.

State Average for SY 2005-2006: 2.3% of the PEAs in Arizona have suspension rates \geq 5% of their population of special education students when they suspended more than 2 students. The state suspension average was 1.44% of the special education population.
